To whom it may concern

I had the pleasure to work with Peter Walton and the staff from Dendrite produce the 4th EACTS database report.

Actually, all necessary tasks were done by Peter and Dendrite in an extremely professional manner and in a very responsible way.

All the deadlines were kept and there was never a problem regarding communication and it was a true pleasure to work together with Peter and his team.

I can recommend Dendrite as a highly professional company in the field of clinical database.
